

Moon Shadow is an unexpectedly beautiful, daring and romantic bolt hole for two. Meticulously thought out to maximise the compact size of the cottage. Moon Shadow is easily one of the most remarkable and distinct holiday lets in St Ives. Approached over a small footbridge Moon Shadow oozes a unique style. Enter into the open plan living space which is a haven for tranquillity and cosiness.

It has a deep, comfy chesterfield sofa, coffee table and 40 inch Smart TV. Underneath a simulated flame fireplace, creating an utterly tempting space to relax in both Winter and Summer. The L-shaped kitchen and breakfast bar divides the space from the living area and provides perfect facilities for couples to dine in style. Well equipped to cook a meal for two, with a compact larder fridge, electric hob/oven and a Nespresso machine.

MOON SHADOW

01

Climb the original staircase to the bedroom which feels surprisingly spacious as it sits under the rafters. Easily fitting a super king bed, another Smart TV, ample built in wardrobe and storage. There is a walk-in rainfall shower with a pebble floor and a unique natural stone bowl sink. It is a space that oozes style and comfort with mirrors and superb lighting to give a glamorous atmosphere that somehow also feels rustic.

02

The on site parking space has a size restriction. Width 1.9 metres x Height 1.7 metres. This is due to having to drive through the opening underneath the footbridge to get to the courtyard where the parking area is located. The slipway down is also steep so we do not recommend it for low riding cars. The parking space itself is standard sized.
